

## MPavilion Parkville access information

MPavilion Parkville is level, step-free venue. Access to the venue is via a mixed-surface path consisting of lawn and a section of gravel. Accessible bathrooms are located in an adjacent building.

### Getting there by bicycle

MPavilion is in a central location on the Parkville Campus, with good access provided by multiple bike lanes. There are over 2,100 bicycle parks available at the Parkville campus, 300 of which are in secure bicycle hubs.

### Getting there by tram

Catch any tram that travels along Swanston Street and alight at Lincoln Square. Alternatively, catch Route 19 and alight at Stop 11. Please [visit the Yarra Trams website](#) to assist with your access options.

### Getting there by car/parking information

The closest car park is University Square Car Park. There are a number of parking spaces for people with disabilities on the Parkville campus.

#### Category-one permits

If you are a category-one permit holder, you may park in a parking bay reserved for people with disabilities for the time specified on the sign only. You must not park continuously for longer than this time.

#### Category-two permits

If you are a category-two permit holder, you may park in any regular parking bay for double the amount of time shown. If the parking is a paid parking area, you are required to pay the initial parking fee. For example, in a four-hour ticketed parking area, you may park for eight hours, provided that you have paid for the first four. A category-two permit does not allow you to park in bays designated for people with disabilities.

#### Temporary disability permits

The transport and parking office can issue temporary disability permits. To receive a temporary disability permit, you must supply a letter of support from your medical practitioner. A University temporary disability permit does not exempt you from parking fees.

Visit the [University of Melbourne website](#) for more information on public parking on campus.
